Can I permanently delete my Kahootz site?

Graham Smith - 2015-12-02 - Site owners

`Yes, but you need to be a Site Owner.`

Just go to **Account > Site Admin** and select **Delete this Site**. There are a couple of confirmation points to make sure this isn't an accident!

Your site will be immediately disabled and all your data will be deleted as part of routine site maintenance. A grace period of 30 days is provided in case you change your mind.
