Creating a Report

Software Support - 2019-11-25 - Reports

There are 2 ways of creating and running reports within Kahootz.

1st - Request a "manager" within the desired workspace to create the report following these steps on the left.

2nd - Request the "site admin" to create the report by following these 3 simple steps on the right.

* The site admin can also run that report on a single workspace or all workspaces.

Workspace Managers

Site Owners & Administrators

Actions

· Create report

Please review this article "Creating a Report - Wizard Breakdown" for more detailed information on creating the actual report.
