Do you offer any training?

Graham Smith - 2017-06-22 - Support & Troubleshooting

Kahootz is designed to be extremely easy to use so hopefully, you will not need additional training. Many of our users have rolled out the system to large numbers of people around the globe with only simple instructions because of the way you can customise each workspace to precisely fit your own projects and needs.

However, should you want us to provide your organisation with on-site (UK), or virtual, training workshops then feel free to contact us so we can arrange to walk you through the power of Kahootz.
