Is it possible to re-brand Kahootz using my company's style?

Graham Smith - 2022-01-18 - Support & Troubleshooting

For Kahootz Professional we can support the ability to put your own company logo in the top corner of the site.
If you wish to find out more information and the costs involved - please raise a support ticket for more details.

For Kahootz Enterprise we support full branding as a consultancy service.
The Kahootz team has been doing this for many years with our many public and private sector clients.
If required, Kahootz can fit seamlessly within an existing organisation or service brand.

Note: Your Kahootz Enterprise license must have a minimum of 250 users and additional consultancy costs will apply.
