Software Support - 2022-08-12 - [How-To](#)

You can see who has an outstanding invite by looking at the **Members & Teams** page.

To re-invite users, you can either enter their email address on the **[Invite](#)** page or follow these steps below.

Only Workspace Managers can reinvite users, unless you've been provided permission.

1. Click on the "**cog-wheel**" icon in the top right corner of the page to open the Manage Workspace menu.

2. Select "**Members & Teams"** from the drop-down menu.

3. Under the page heading (Manage-Members) change the "**Show"** from **Members** to **Invited Users**.

4. Check the tick box/s of the people you wish to re-invite.

5. Click on the "**Invite"** button.

You can't re-invite people within 1 hour of inviting them!
