

How-To Use the Comment Form in a Structured Document

Software Support - 2024-07-02 - How-To

The Structured document comment form allows users to provide feedback by capturing comments within the document's text, giving comments their full context.

To view the comment select 'Configure the comment form' from either the Actions menu at the foot of the page or from the ellipsis menu.

Configure Comment Form

Use drag and drop to change which questions are included and their order

| Questions that will be shown on the form | Other available questions |
|--|---|
| <div style="border: 1px solid #ccc; padding: 5px; margin-bottom: 5px;">⋮ Question: Your Comment</div> | <div style="border: 1px solid #ccc; padding: 5px; margin-bottom: 5px;">⋮ Question: Summary of your Comment</div> |
| | <div style="border: 1px solid #ccc; padding: 5px;">⋮ Question: Upload Attachments</div> |

Options

Allow comments

Do not change

Turn comments OFF for the entire document

Turn comments ON for all text blocks

The Structured document comment form allows users to provide feedback by capturing comments within the document's text, giving comments their full context.

To view the comment form, select 'Configure the comment form' from either the Actions menu at the foot of the page or the ellipsis menu. The comment form is shown below; it provides options to change the questions and the comment form default.

- Use drag & drop to move questions between the 2 lists, the questions shown on the form and the available questions.
- Turn comments on or off for the whole document or save without changing the

current selection.
