Keyboard Shortcuts

Software Support - 2017-06-21 - [Functions of Kahootz](#)

The Kahootz functions on the top menu bar are keyboard accessible by typing the following keys:

w	Show the 'My Workspaces' menu
d	Go to 'My Dashboard'
n	Show the 'Notifications' menu
s	Show the 'Search' menu
t	Go to your 'Tasks' page
a	Show the 'Account' menu
h	Show the 'Help' menu
m	Toggle the left-hand menu.
f	Show the 'Actions Dropdown' menu

When you open any menu, you can use the cursor keys to move between options, the 'Enter' key to activate an option, and the 'Esc' key to close the menu.

So that you don't need to remember them, the access keys are displayed on the tooltip that's shown when you hover over each menu item.
